

# LIFE'S little EMERGENCIES

## Fire Escape Planning Grid

Home Address: \_\_\_\_\_

Make a photocopy of this form for each floor of your house. Draw the floor plan on the grid above. Be sure to include all doors and windows. Show the location of all working smoke alarms. Draw arrows to show escape routes.

Pick a place for everyone in the house to meet outside.

Practice your escape plan a couple times each year. The best way to make sure you will be safe is to practice getting out of the house *before* a fire happens.
